PARTS OF THE UKULELE

CHORDS

TUNING YOUR UKULELE

The most common tuning for the ukulele is **G-C-E-A** (from the string at the top). A little rhyme to help you remember –

Greedy Cats Eat Anything

The string at the top is pitched higher than the next two strings. This is known as *re-entrant* tuning and helps to give the ukulele its unique sound. This type of tuning is commonly written like this – **gCEA**.

HOW TO READ THE CHORD DIAGRAMS
